**David Ashley**

Founder / CEO

1-800-892-0000, Ext. 3

In 1992, David Ashley noticed a trend in advertising - that national companies were utilizing vanity 800 numbers rather than using numeric numbers. He created Tele-Name Communications to bring the same powerful advantage of memorable tele-name-numbers to small and mid- size companies for their use in their local marketing.

For the past 18+ years, Tele-Name Communications has been helping local businesses dominate their markets through the shared-use of the best tele-name- numbers in the country.

**We all know the "Yellow Pages" are dead. So how do people find you? Answer:**

# Google

Did you know that most local searches are people looking for a company's phone number? And 4 out of 10 people will begin searching for one company's number but end up calling a different company due to the search results?

We also know that getting your company's website on the first page of Google search results is nearly impossible.

There's a simple, but effect way to capture new business, without forcing customers to search for your telephone number. Own and use a memorable Vanity Number on all of your current marketing. Prospects in your community will be able to contact you from memory so they don't have to "look you up" in the phonebook or on Google.

## Testimonials

"Since February 1997 I have used the services of Tele-Name Communications and Advertising Group. The services provided to me by Tele-Name have been exceptional in all respects. I would highly recommend this company to anyone."
